millat the Little Butte mine at Randsburg, Kern county, averaged \$150 per day, representing six feats of ore worth \$25 per ton. A good find has been made two nilles from the town just of the Stringer district, where, on a vacant risce of ground that was so covered with wash and was so unpromising looking that no one tenderfoot, who knew little or nothing of minpicked up a piece of float that showed He then began scratching in the dirt in half an hour had uncovered a rich six-He has sunk a twenty-five foot shaft, opened up a vein a foot wide and taken out ten tons of ore that runs about \$100 per More ore is now being extracted and sorked at Bandsburg, with a larger yield, than ever before in the history of the town. Over 200 tons of ore are now being crushed dany, which at a low estimate averages \$5,000, The Stangler mine, near Garden Station, has shipted to San Francisco a carload of ore runfrom 480 by \$100 person.

in Place, county it is expected that river bar mining will be profitable during the coming season. The recent flood has lowered the in the North Fork of the American about two feet. For the two years previous the flood water has been insufficient to move the tailings. Nearly the entire bed of the elect is held by location for several miles. In good seas as heretofore the river bar miners have sometimes cleaned up as high as \$8 a the man.

The Hemet mines in Riverside county have been turchased by Denver people who have mough capital to put the mines on a paving The tre is rich. The : Homestake group of five corner claims and the Mountain King group of three copper claims. In the newood mining district, have been sold to an English syndicate for \$150,000. The new owners extent to establish a smelter that will erush 300 tons of ore a day.

K. Vanatta of Colorado Springs, one of the new owners of the Flevada mine, San Diego county, has organized the Smoky City Mining Company for the development of the property with a capital of \$250,000. The ore taken from the mine in process of development averages \$30 per ton.

The Brue Jay mine on Coffee Creek, which attracted a great deal of attention two years ago,by reason of the rich pockets found near the surface, is now producing milling rock. It has a sulphide vein in a lower tunnel, In the Flat Creek mining district it is said that there is not a foot of ground not included

mining a focation. In one day recently there were recorded seventeen locations of quarte claims in that district The warring partners in the Rawhide and App mines, Tuolumne county, Capt. W. A. Nevills, W. H. Martin and John Ballard, are said to have agreed that they will accept an offer of

\$1,800,000 for the property and divide the proreeds among the shareholders in proportion to The May Brothers are reported to have leaned up in \$10,000 pocket in their claim, near roughbut. Pocket mines have been discovered a dozennient hand near O'Byrnes's Ferry, muster of cell mis have been located. One bocket yielded \$200.

pecket yielded \$1340.

Preparations are being made to mine mica in ventura county. A company has been inserporated for that purpose at Hanford.

corporated for that purpose at Hanford.

MEXICO.

GUXYMAS. April 15.—During February the Sierta Moteda mines produced \$416,770 in silver, corper and lead, this product having been pieded by 15.000 tons of ore.

The Peacles Company of Durango paid dividents last year 'amounting to \$1,000,000; the santa Maria de la Paz. Matahuch. \$500,000; and the Esperanza y Annexas, \$420,000.

The American Mining Company of which J. B. Haggin & Co. of New York are the principal stockholders, has, almost completed its 100-stamp mill and evanide plant at El Oro.

Namiles of gold ore from a new prospect in the Jacalitos district, Lower California, called the Mexican, are exceedingly rich. The ore in the mine averages \$40 per ton, with bockets in which the ore is covered with free gold.

WASHINGTON.

SEATTLE, April 17. Nearly all the placer mines in Swauk district started up during the past week and the first to make a clean-up was the Bignet, producing nearly \$1,000 in coarse End. On the famous Binek claim two giant mills are oversting successfully in the old channel from which so many big nuggets have been taken for the past twenty years. The afreams in the district are furnishing lenty of water and there is a large reserve in the snowdrifts in the mountains, where it is have the from twenty to forty feet deep. It is thought there will be plenty of water to supply SEATTLE, April 17. Nearly all the placer mass in Swark district started up during the past week and the first to make a clean-up was gold. On the famous Rinek claim two giant gold, on the famous Rinek claim two giant gold on the famous Rinek claim two giant gold on the famous Rinek claim two giant gold on the gold of the Rinek form which so many big nuggests have been maken for the bist twenty years leave the manual three shall be formed the same different to ferty feet deen. It is thought there will be plenty of water to supply the diagrants until the middle of August.

They are on a ledge twelve feet wide, traceable for 1,000 feet, the ore assaying from \$10 to \$20 in gold and concer.

A force will be put on the Willis-Yakima

were bonded hast week for \$15,000. They are on a ledge twelve feet wide, traceable for 1,000 feet, the ore assaying from \$10 to \$20 in gold and copper.

A force will be put on the Willis-Yakima group on Douglas Island this week for the purpose of sinking a shaft to the depth of 500 feet, to demonstrate the value of the ore at that denth. The ledge, which parallels the Treadwell, is over 1,000 feet wide on the surface, the ore assaying from \$1 to \$20. The property is now under bond to New York and Boston people, who have put up \$25,000 to demonstrate whether values continue to the depth.

The Gilbert group in Nilver Bow Basin, back of Juneau, under bond in London, will change hands in about thirty days at a good price.

The first vessels from Valdes and Copper River bring news to March 26, at which time the scurvy, which had been prevailing among the miners to such an sharaing extent, had abated and the men were in more cheerful spirits. A number of important gold discoveries, both placer and quartz, had been made and a small shipment of dust was consigned to Seattle merchants. The Government is feeding 100 stranded men who are awaiting opportunity to come out, while an equal number, inspects of the property in the country and will join the Abercromble exploration party.

Two schooners with cargoes of provisions and hydraulic machinery for the mines of Cook Inlet have suited within the past few days in anticipation of an early mining season. These vessels carried but few gold seekers, and indications point to a very light rush to this portion of the Territory the spiring. New plants will be installed on old and promising ground and a much larger output than last season is anticipated.

At the Helen Bay quartz mines another clean-up of \$19,000 is reported, making the second since the discovery of the property. These results have onen obtained from selected ore, while large quantities of lower crade free miling and concentrating ores have accumulated to be treated hereafter by a larger plant.

accumilated to be treated hereafter by a larger plant.

Chicago men have discovered a gold ledge within four miles of Skagway, which they regard as very promising. It is from two to four feet wide and traceable two miles, the ore assaying from \$4 to \$20 gold, free milling in character, Ledges of this character, while they are looked upon with indifference by old Alaskans, seem to create enthusiasm among the tenderfeet.

At Attin Lake, where the boom was ended by the Exclusion act, the quiet is almost oppossive, and the prices that prevails alsa fall for promising placers have dwindled to comparatively nothing. The American prediction that the district would be ruined if the law was bassed has been fully realized. An effort is being made to revive interest in the quartz ledges, to which the alien act did not apply, but success is indifferent, regardless of the fact that there are many very promising gold and copper properties located.

During the past week about \$80 men have passed over the trail bound for the mines of the Yukon and Klondike, while 100 miners have come down from Dawson. Those who return bring down but little dust, but report active work in all the creeks and estimate an output of not less than \$15,00,000, nearly all of which will be out by the middie of August.

BEITISH COLUMBIA.

SEATILE, April 17.—The St. Anthony Exploration Company is negotiating for the purchase of the holdings of the Omineca Consolidated Company on Mansen Creek. Omineca district, consisting of 720 neres of placer ground, together with hydraule plant sawmill and general fixtures. The consideration is not made public, but is thought to be from \$125,000 to \$150,000. The Omineca Company began operations on Mansen Creek about three years ago, meeting with fair success, but the enterprise has not been pushed. The active season will open in this district about the middle of May, and the Exploration Company contemplates a busy and profitable year.

The Enterprise mine, Stocan district, is reported to have changed hands, the London Gold Fields Company hala an illion. The company has acquired other properties in Stocan and Ymir of equal value and they are being operated very successfully.

The Payne mine, one of the big producers of Slocan, continues to pay its regular monthly dividend of \$20,000. BRITISH COLUMBIA.

of Slocan, continues to pay its regular monthly dividend of \$25,000. The high price of silver-lead ores make this possible.

Signa Mojeda mines produced \$416,770 in silver, copper and lead, this product having been pieded by 10-25 company of Durango paid dividents last year amounting to \$1,050,000; the saits Maria de la Paz. Matahuela, \$360,000. The saits Maria de la Paz. Matahuela, \$360,000. The American Mining Company of which J. B. Haggin & Co. of New York are the principal stockholders, has, almost completed its 100-samp mill and exantice plant at El Oro. Samples of gold ore from a new prospect in the mine averages \$40 per ton, with poekets in the mine averages \$40 per ton, with poekets in the mine averages \$40 per ton, with poekets in the mine averages \$40 per ton, with poekets in the liabton & Lark mine at Bingham has just been sold to Eastern men for \$195,000. The seller was Jeremiah Schenck, who has practically owned the mine for a good many years, and one of the buyers is said to be C. A. Asudman of New York. The ground consists of 120 acres and has been practically as a standistii. This makes the third deal in Bingham mines within the past two months, the others being producers while the subject of the displacement of the bing producers, while the produce of the buyers is said to be C. A. Asudman of New York. The ground consists of the light of the buyers is said to be C. A. Asudman of New York. The ground consists of the subject of the new smelter combine which has alsoorbed the almas operating in the managers of the new smelter combine which has alsoorbed the almas operating in the managers of the new smelter combine which has alsoorbed the almas operating in the managers of the new smelter combine which has also made, and agood amount of the took Mining Company, including and the subject of the took Mining Company, including and the subject of the took Mining Company, including the lambour of the took Mining Compan MONTANA.

New York, where he has been in consultation with the minangers of the new smelter somble which has absorbed the plants operating it itan Mr. Jones says there will be no change in the stituation.

Alticolve Island on the Great Salt Lake still emitines to attract attention as a mining centre. Some evcellent discoverers of gold and concerve have been made, and a good amount of davelopment work is teeing done. A boom is prelisted for the new York in the list five to the best groups in the district.

It is reported that Jesse Kinght, owner of the Lack Sam and Humburg at Tintic, is about to he originate the mines, adding to them the lichmond-Anaconda, which will make one of the best groups in the district.

The laws smelter at Leamington, Utah, has been ourclassed by the new combine, the price and while a strong in the district will be increased by three, two of the part groups in the district will be increased by three, two of the property for \$100,090. The mines are looked and will be extensively worked by the new owners.

Another important group of currer mines have been sold in this vicinity, the Twin Buttes. Law Maror Henry Bushman made the sale of the property for \$100,090. The mines are looked seven miles from the Azurite, and considerable development work has been done on them. The purchasers are a Boston syndicate, who will arrange for equipping the property will be increased by three, two of the property for \$100,090. The mines are looked will be increased by three, two of the property for \$100,000. The mines are looked will be increased by three would not pay expenses.

MINING, MIGLING, SMELTING AND CONCENTRATING MACHINERY, COMPLETE MILLS; ESTMATES FURNISHED, THE EDW. P. ALLIS CO., ROOM 1,111, 26 CORTLANDT ST., NEW YORK,

Relative, April 17.—The country tributary to implementations of mining and smelling machiners. Estimates on mining and smelling machiners. Estimates on mining milling and smelling machiners.

"At last I tried Warner's Safe Cure. From that time I improved every day. Now my appetite and digestion are good and every function of life seems to be rightly performed. My cure is a wonder to myself, my neighbors and my friends."

This is the story in a nutshell of countless of thousands who have used and been benefitted by Warner's Safe Cure.

properties by the various steel making combines is giving a value to lands and explorations that has been lacking for years. Thousands of Explorers are working, many on the old ranges of Mishigan, where the indications of new finds are not at all discouraging.

The Federal Steel Company is reported to be negotiating for the purchase of the Chapin mine lesse for a price approaching \$2,500,000. The Chanin is one of the largest deposits on the ranges and will this year mine nearly #90,000 tons. It is a non-Bessemer mine and is held under lesse.

The Carnegle Steel Company now has control of the five mines of the Queen group, near Ishpeming, and has already put 500 men at work there. The mines are to make an annual current of about 590,000 tons.

In a lonely spect on the north shore of Lake Superior, near the famous Ninegon liver, ten miles from a railroad, a little colony of men are working a zine mine. Outeropplanes of the ore were discovered by a fishing party that went up the Ninegon last auminer. The ore was exposed on the edge of a cliff, and no doubt hundreds of anglers who have fished in the famous trout stream have nessed it many times. One of the party discovered it acridentally. The fishing trip was forgotten and after a careful inspection it was seen that a valuable deposit of line had been found. The party returned to builtuin and secured the necessary tools and appliances for developing the mine at once. About 1,300 tons of the raw zinc has been taken out and sent to Belgium to be reduced and refined. The ore is certy rich, running from 50 to 40 per cent, pure zinc. It is mined very easily. It was only by accident that the news of the find leaked out. The men secured the property from the Government, signed partnership articles and have secured property on all sides of the present mine and will explore all of it. They have kept three or four tesms basy all winter hauling the ore to the railroad, from where it is shipped direct to Belzium.

MISSOURI-RANSAS. MISSOURI-KANRAS.

JOPLIK, Mo., April 23.—The boom in zine ore continues and prices advanced again during the week, reaching \$55 a ton, for ore in the bin. All records were broken.

Heavy rains during the week caused the flooding of many mines and cut down the week's output about 20 per cent.

A great many New York and Boston capitalists are coming to the zine district and are making big investments in mines and mining machinery. Much prospecting is being done all over the district and mining properties are steadily advancing in value.

OUTRAGES ON JEWS.

A Massmeeting Takes Action Against Beard-Pulling Committee Appointed. A massmeeting of Jewish residents of Williamsburg was held last night at Synagogue Kaffer Torbeb, at the instance of the American Hebrew League, to protest against the outrages and insults to which Jews are subjected by boys and the tough element. Nearly a thousand persons were present, and speeches a thousand persons were present, and speeches in Hebrow were made.

The speakers said that the Jews of Williamsburg had been enduring too much. When men with long beards came up from the Broadway ferry from their work in New York, the newsboys began to shout at them and pull their beards. The police were blamed for not having put a stop to the outrages. The persecution, it was said, lasted frequently until the men reached their homes.

A committee of twenty-five, headed by the President of the League, Reuben Strahl, was appointed to wait on Mayor Van Wyek.
